

Saket Saurabh
Machine Learning & Computer Vision Developer

Education
AI & ML Specialization

Skills

- Languages: Python
- Frameworks: TensorFlow, Keras, YOLO, LangChain, Streamlit
- Deployment tools
- Computer Vision, Model Deployment, Real-time Systems, Accessibility, Sports Analytics

Projects

1. Signboard Recognition System
 - Developed a real-time computer vision system to recognize signboards for accessibility.
2. Currency Detection
 - Built a machine learning model to detect and classify currency notes.
3. Football Analytics
 - Analyzed football match data and player tracking using computer vision techniques.

Certifications

- AI/ML Certification
- SQL Certification
- Edge Computing Certification
